

About QG Medical Devices

Qatari German (QG) Medical Devices is a leading provider and manufacturer of high quality, innovative medical devices, head quartered out of Doha, Qatar.

Patients are our priority and long prosperous health is our objective.

Through our innovation in every aspect of product development and disposal, our responsibility for the wellbeing of healthcare personnel and our commitment to raising the quality of patient care.

We are determined to contribute back to our communities by raising awareness about healthcare safety wherever we are in the world.

QG has proved to be a credible contender in the medical devices industry when progressive healthcare markets of uncompromising standards, such as Europe, started to rely on QG patient-centric products for superior quality. For the same reasons, QG Medical Devices is realizing rapid growth of market share worldwide.

QG Medical Devices Advantage:

QG understands the evolving market needs and is committed to always offering added value to all buyers, users and consumers of QG Medical Devices. Through continued **investment in innovation and quality standards**, QG only delivers products that are the **best for patients and best for healthcare providers and personnel**, with vital consideration of the environment.

QG does not compromise on employing **best practice processes** ensuring all regulatory requirements are met and therefore achieving **worldwide reach** and becoming available to you wherever you are. Additionally, by means of providing **promotional tools and commercial facilitation**, QG supports distributors and strategic partners for long term prosperous relationships.

Q Ject® Introduction

At QG we understand the importance of patient care and how critical it is to provide accurate readings when injecting medication. Q Ject® equips you with easy to use syringe intended to minimize patient discomfort and help you deliver the quality of care your patients deserve.

Design and Features

The Q Ject® product design combines medical grade components that facilitates crystal clear clarity and raw materials that complies with USP Class 6 which facilitate long shelf-life of 5 years with no risk of contamination. Through meticulous design and strict adherence to the highest standards of production Q Ject® offers semi safety features and therefore eradicates any possibilities of long-term complications associated with non-medical grade plastic syringes.

QG's core values are aligned with The One & Only* awareness campaign which promotes adherence to safe injection practices to prevent disease transmission from the misuse of needles, syringes, and medication vials in outpatient settings through:

1 needle + 1 syringe + 1 time only = 0 Infections

*Campaign launched by Centers for Disease Control & Prevention (CDC)

1 ml	3 Part	All	Luer slip	100	1,000	1,056	2,394	1,056,000	2,394,000
Insulin	3 Part	All	Fixed	100	1,000	1,056	2,394	1,056,000	2,394,000
2-3 ml	2 & 3 Part	All	As Per Request	100	1,000	576	1,800	576,000	1,800,000
5 ml	2 & 3 Part	All	As Per Request	100	1,000	503	1,200	503,000	1,200,000
10 ml	2 & 3 Part	All	As Per Request	100	1,000	372	900	372,000	900,000
20 ml	3 Part	All	As Per Request	100	100	2,548	6,048	2,548,000	6,048,000
50 ml / 60 ml	3 Part	All	As Per Request	60	60	2,067	4,950	2,067,000	4,950,000

The Quality Patients Deserve

World Class Quality

Q Ject® has been manufactured under the ISO 7886 "Sterile hypodermic syringes for single use". It is made from the highest quality of raw materials and undergoes 100% automated online inspection throughout the manufacturing process.

Environmental Considerations

Q Ject® single use syringe is one of the leading quality products in the market when it comes to environmental consideration.

In alignment with our corporate social responsibility Q Ject® raw material has been evaluated to assure biocompatibility as per international standards of ISO 10993.

We are continuously seeking to improve our performance in environment by maintaining safe and environmentally sound manufacturing processes under international standards and certifications.

Latex Free
Pyrogen Free
Non-Toxic

Q Ject® Benefits

To Healthcare provider / staff:

- Semi Safety features
- Minimal skin penetration force required
- Cost efficient

To Patient:

- Minimal discomfort
 - Minimised risk of cross infection
 - Medical-grade material that is compatible with medication*
 - Latex Free and Pyrogen Free
- *Except with Para-aldehyde

To the Environment:

- Made of non toxic materials

Unique Features Include

Barrels:

Made of non toxic, medical grade polypropylene compatible with any medication.*

High product clarity allow a crystal clear view of aspirated medication. In addition the clear printed scale allows proper dosing.

Plungers:

Made of non toxic, medical grade polypropylene for 3 part syringes and polyethylene for 2 part syringes compatible with all medication.

Gaskets:

Made with latex free elastomer rubber, which prevents:
a) Chemical/ionic reaction between drug & gasket
b) Allergic Reactions

*Except with Para-aldehyde

Q Ject® Single Use Syringes are Manufactured as per ISO-7886-1
